Mindy Jones
Account Manager
515-779-6064 | Mindy.Jones@staples.com

Sean Kohlhaas
Account Executive, Facility Solutions
515-341-2218 | Sean.Kohlhaas@staples.com

Your team. Always ready to help.

Meet the team that will go above and beyond for your business.

Customer Service Team

(877) 826-7755 | Support@StaplesAdvantage.com
8:00 am to 8:00 pm EST

Your Customer Service Team, your first stop resource, is always here for you. They operate with a “One and Done” philosophy: Your question will be resolved with one call, without you needing to transfer or follow up. It is available to help when you need assistance for:

- Researching products
- Placing orders, including phone or fax orders
- Resolving escalated issues and processing returns
- Providing updates for tracking and delivery information on your orders

Melissa Finke

Customer Success Consultant
(651) 234-1028 | Melissa.finke@staples.com

Your Customer Success Consultant (CSC) is also available to assist you with things like adding new users to your account, adding or deleting locations, and much more. Your CSC will work with your Account Manager to keep you up-to-date on new promotions and offerings that make sense for your company, as well as to keep you updated on enhancements to your program.

Mindy Jones

Territory Account Manager
(515) 779-6064 | Mindy.Jones@staples.com

Your Account Manager is your in-person connection to Staples®. They will schedule on-site meetings to identify better ways for your organization to take advantage of the products and services available to you. Through personal insight into your organization's needs, your Account Manager can help you reduce costs and streamline processes. By partnering together, your Account team will ensure that your business has everything you need to succeed.

Sean Kohlhaas

Facilities Specialist
(515) 341-2218 | Sean.Kohlhaas@staples.com

Your Facilities Specialist can educate you on the right product, application, and training programs for your building. Your Specialist will create solutions that help reduce labor hours and maintenance costs and ensure consistent knowledge across your workforce.
