EWING AND VGM CLUB ANNOUNCE PARTNERSHIP

[Waterloo, IA, August 1] – Ewing and VGM Club today announced a partnership that will provide among other benefits annual monetary product credits to golf courses and country clubs when utilizing both companies' services.

Ewing, the United States' largest family-owned landscape and irrigation products supplier, will offer up to a three percent reduction of costs to over 3,500 facilities that participate in VGM Club's procurement program.

Landscape & turf products, landing lighting, water features, erosion control products and irrigation supplies are eligible for these benefits. An opportunity to connect with so many courses with the VGM Club connection was a defining factor for this announcement said Steve Sakurai, Ewing national golf products sales manager.

"Golf is an important portfolio in Ewing's business. We're excited for the valuable opportunity to work with VGM Club and its members."

"We are extremely excited to welcome Ewing into our partner community," said Mike Woltz, VGM Club director of agronomy development. "Our members have asked for some time now for an irrigation solution and Ewing offers that and so much more."
