

# Craft Brewing Solutions

Gases, equipment, safety products and expertise

Airgas has been named  
Supplier of the Year  
by prominent national  
beverage suppliers  
including:

- MillerCoors
- Coca-Cola

## Get Peak Performance

Airgas National Carbonation, an Air Liquide company, provides the gases, gas equipment, safety products, and expertise craft brewers need to stay at peak capacity while positioning for growth. As the nation's largest and most dependable supplier of food- and beverage-grade carbon dioxide and nitrogen, craft brewers rely on our expertise and innovative solutions.

Our recommendation for the right supply options and delivery modes to accurately apply gas and avoid waste gets you more out of every barrel produced.

Airgas National Carbonation helps craft brewers maximize productivity and reduce downtime with more effective gas and equipment supply chain and inventory management, simplified gas system maintenance, and expert safety solutions all backed with uncompromising customer support.

# How to stand out and stay ahead— meet and grow your demand

**Whether you're producing a few thousand or a few million barrels of craft product annually (including beer, hard soda and ciders), Airgas National Carbonation is your go-to source for your brewpub and/or brewery needs.**

## More than just delivering gas

**Maximize productivity, reduce downtime, and simplify maintenance of your gas system**

Get gas application and supply chain expertise from a company with decades of experience helping breweries and other industrial clients stay at peak capacity and on budget while positioning for growth. From delivery to dispensing, our specialists understand your complete brew process, making Airgas National Carbonation your single-source supplier.

- Carbon dioxide, nitrogen and oxygen that meet beverage industry specifications, and more
- Organic-approved and ISBT-compliant gases available
- Custom programs for any size brewery
- Gas equipment including CO<sub>2</sub> monitors, N<sub>2</sub> generators, and more
- Inventory management
- Safety services and products
- Dispensing systems from maintenance to monitoring
- Welding gases and equipment, plus welding expertise
- Airgas National Carbonation specialists backed by 24/7 customer service

## An Airgas National Carbonation partnership for success and growth

“Fort George has experienced tremendous growth over the last eight years and Airgas National Carbonation has been there all along, anticipating solutions to issues we didn't even know we had yet. From cylinders to increasingly large storage tanks for CO<sub>2</sub>, Airgas National Carbonation has worked with us to ensure we had enough gas with as little waste as possible.”

Jack Harris, President | Fort George Brewery and Public House

“When we started, a run every few weeks to the local CO<sub>2</sub> supplier wasn't an issue. But as we've grown, Airgas has provided us with solutions that exceed our expectations. There's no more driving to replace cylinders or unexpected empty tanks, Airgas is there with what we need and when we need it!”

Aaren M. Simoncini, Brewer/Owner | The Beer'd Brewing Co. LLC

Supplying craft brewers locally, nationwide

Airgas National Carbonation helps you better manage today's supply chain challenges in craft brewing and improve your position for tomorrow's opportunities.
